Jeff Smith and Mike Gibbons Meet In Important Middleweight Bout

Twelve-Round Battle Is Sched- resterday became the proud father uled in Open Air at Jersey City Club.

By John Pollock.

The most important fight for New Jersey since the world's heavyweight championship contest between Jack Dempsey and Georges Carpentier, on July 2, will be that between Mike Gibbons of St. Paul and Jeff Smith, the crack middleweight of Bayonne, N. J., at the open air boxing show of the Armory A. A. of Jersey City tonight. The men will battle twelve rounds, and as the contest has aroused considerable interest among the fight fans throughout New Jersey the indications are that the arena will be packed to its capacity. Promoters all over the country have been trying for several years to match these two great middleweights for a battle.
